SUPPLEMENT TO  
REPORT NO.

1. The organization of combines to supervise industry in the Russian zone was approved by SMA approximately 20 May. Some 1900 publicly owned enterprises with 85% of the industrial capacity of the Russian zone are included in these combines. The individual enterprise loses its identity and independence; control is completely in the hands of the DWK by means of a director for each enterprise appointed by the DWK. Source states that the purpose of these measures is to ensure full production on reparations orders.
2. Attached is a list of 15 combines together with subsections and addresses.

**Next Review:** 2 years
